

AMENDMENTS TO THE SPECIFICATION

Please replace the following paragraph: p.1, lines 19-23. (The first full paragraph on p.

1.) Replace said paragraph with the following paragraph:

This present invention relates to a composition which relieves headache, blood constipation, tapeworm, hemorrhoid, constipation and stomach acidity symptoms. The new composition has increased therapeutic efficacy. The invention particularly relates to a pharmaceutical composition containing asafetida, ~~tumeric~~ turmeric, and other compounds as will be shown. The invention also relates to methods of use of the ~~chemical~~ pharmaceutical composition.

Please replace the following paragraph: p.5, lines 7-11. (The second full paragraph on p.

5.) Replace said paragraph with the following paragraph:

There is a need in the art for a method for relief of headache, blood constipation, tapeworm, hemorrhoid, constipation and stomach acidity symptoms. Blood constipation is a condition characterized by a depletion of nutrients in the blood caused by an inability to absorb nutrients in the gastrointestinal tract. There is also a need in the art for a method for administering the ~~chemical composition~~ is pharmaceutical composition in capsule form. There is also a need in the art for combining these ~~chemical~~ pharmaceutical compositions in a capsule form.

Please replace the following paragraph: p. 6, lines 16-19. (The fourth full paragraph on

p. 6.) Replace said paragraph with the following paragraph:

According to the invention there is provided a ~~chemical~~ pharmaceutical composition comprising asafetida, ajwain seed, vidanga, cumin seeds, fenugreek, triphala, fennel seed, and turmeric which is to be combined in capsule form to relieve headache, blood constipation, tapeworm, hemorrhoid, constipation and stomach acidity symptoms.

Please replace the following paragraph: p. 7, lines 12-17. (The second full paragraph on p. 7.) Replace said paragraph with the following paragraph:

The ~~chemical~~ pharmaceutical composition of the preferred embodiment of this invention includes asafetida, ajwain seed, vidanga, cumin seeds, fenugreek, triphala, fennel seed, and turmeric. No one has yet discovered the extreme effectiveness of this ~~chemical~~ pharmaceutical composition as a relief for symptoms associated with headache, blood constipation, tapeworm, hemorrhoid, constipation and stomach acidity until this invention. This is a new and novel use for this material.

Please replace the following paragraph: p. 7, lines 18-22 to p. 8, lines 1-2. (The last paragraph on p. 7, which continues to p. 8.) Replace said paragraph with the following paragraph:

The preferred embodiment is placed within a capsule using known techniques, however the composition may be mixed together and formed into a tablet, or administered in syrup or dry powder form. In the preferred embodiment, each ~~chemical~~ pharmaceutical component is taken in dry powder form in a proportion as will be shown. The components are then preferably mixed together along with water and boiled for approximately thirty minutes. The resulting composition is then allowed to cool and placed within a gel capsule using known techniques.

Please replace the following paragraph: p. 8, lines 3-9. (The first full paragraph on p. 8.) Replace said paragraph with the following paragraph:

The following example is intended to illustrate the invention without limiting the invention. The preferred ~~chemical~~ pharmaceutical composition of the capsule is 5 milligrams (mg) of asafetida, 100 mg of ajwain seed, 50 mg of vidanga, 20 mg of cumin seeds, 20 mg of fenugreek, 100 mg of triphala, 180 mg of fennel seed, and 25 mg of turmeric. The 100 mg of triphala preferably contains 15 mg ~~Terminalia chebula~~ Terminalia chebula, 35 mg of *Terminalia belerica*, and 50 mg of *Embilica officinalis*. However, equal portions of each may be used.

Please replace the following paragraph: p. 8, lines 10-15. (The second full paragraph on p. 8.) Replace said paragraph with the following paragraph:

The ~~chemical~~ pharmaceutical composition is to be applied orally by capsule. Two capsules administered every morning for 30 days helps relieve the aforementioned symptoms. While the invention has been described in connection with a preferred embodiment it will be understood that it is not intended that the invention be limited to that embodiment. On the contrary, it is intended to cover all alternatives, modifications and equivalents as may be included within the spirit and scope of the invention as disclosed.

Please replace the following paragraph: p. 8, lines 19-22. (The last full paragraph on p. 8.) Replace said paragraph with the following paragraph:

With respect to the above description then, it is to be realized that the modifications of this ~~chemical~~ pharmaceutical composition of this invention are deemed readily apparent and obvious to one skilled in the art, and all equivalent relationships are intended to be encompassed by the present invention.

Please replace the ABSTRACT section as follows:

A ~~chemical~~ pharmaceutical composition including asafetida, ajwain seed, ~~vidanga~~ vidanga, cumin seeds, fenugreek, triphala, fennel seed, and turmeric and the method of use
